**UNIVERSITY CITY HOUSING CO.  
PO Box 1524, Bryn Mawr, PA 19010**

February 2012

Dear Valued Resident:

In preparation for the upcoming winter season, University City Housing Company has created a snow and ice removal program, with the goal of keeping the property walkways and parking lots safe and clear.

As needed and as the snow fall permits, UCH will plow the parking lots, shovel steps and sidewalks, and clear walkways from the front door of the property building(s) along the sidewalks to the parking lot. UCH will also clear one or more pathways from predetermined sidewalk locations which lead to the center points of the property parking area(s).

**For your safety, UCH strongly urges you to walk only in those designated areas and cleared pathways and to take all necessary precautions when walking about the property and entering or leaving your car in the parking lot.**

There will be times when UCH will be unable to remove from the parking areas all of the snow and/or ice that has accumulated from a winter storm. While we will try to remove as much precipitation as possible from around parked cars, we suggest keeping a shovel and de-icing agent in your car so that you are able to minimize or remove any precipitation which we are not able to plow.

If, for any reason, the areas on the property indicated above have not been cleared within six (6) hours of the end of the ice or snowfall, or if ice accumulates along the designated pathways after they have been cleared, we ask that you immediately contact your onsite property management office or leave a message with our answering service if it isn't during regular office hours.
